

**Supplementary Fig. 1.** Decade-wise trend in candidiasis with respect to the infection-causing species. The number of publications was plotted on the x-axis and the reported *Candida* species were plotted on the y-axis. Based on the year of publication, the data was stratified into four groups: up to 2000, 2001-2010, 2011-2020 and 2020-2022.
