

Supplementary Table I. The matrix displays the median values of the parameters under study for both healthy and symptomatic

| | Patient's score | Min PR | Max PR | Max PR change | Max SpO ₂ | Min SpO ₂ | Desat Max | Cumulative PR Change | Cumulative Desat Max | Duration of Tachycardia | Duration of desaturation |
|-------------|-----------------|--------|--------|---------------|----------------------|----------------------|-----------|----------------------|----------------------|-------------------------|--------------------------|
| Healthy | 0 | 78.5 | 108 | 26 | 98.5 | 97.5 | 1 | 117 | 1.5 | 30 | 15 |
| Symptomatic | 4 | 84 | 103 | 22 | 98 | 97 | 1 | 114.5 | -2 | 23 | 50 |

PR, pulse rate; SpO₂, oxygen saturation
