Supplementary Fig. 3. Contd...

Supplementary Fig 3. Phylogenetic analysis of gene segments of A/India/NIV1519/2024/(H9N2). Maximum likelihood phylogenetic trees are shown for the PB1, PB2, PA, NP, NA, Matrix, and NEP gene segments. The study strain A/India/NIV1519/2024/(H9N2) (highlighted in the figures) clusters within the Middle East B lineage. Scale bars indicate nucleotide substitutions per site.
